

To Whomsoever It May Concern

Subject: Declaration of Saarthi Greentech's Experience with the GreenDrive Technology

We, at Saarthi Greentech, hereby declare our professional experience with the GreenDrive Technology, inspired by the Hydrogen Fuel System technology designed and patented in Australia by Mr. Gavan Lenard Knox. Over the past year, Saarthi Greentech has incorporated this system into our research and testing programs across India to evaluate its efficacy and impact on vehicle performance.

As part of our comprehensive testing protocol, the GreenDrive Technology has been installed and tested on a diverse range of vehicles, covering a cumulative distance of more than 100,000 kilometres under various driving conditions. The testing involved commercial and passenger vehicles, operating on both highways and urban roads, to ensure a thorough evaluation of the system's impact.

Based on our detailed assessments and feedback from test vehicle operators, we confirm the following:

1. **Performance and Efficiency:** Every vehicle equipped with the GreenDrive Technology has consistently demonstrated fuel savings, as well as reduced emissions. These results are supported by lab tests conducted during our evaluation.
2. **Engine and Transmission:** There have been no reported cases of damage or adverse effects on the engine, transmission, or any other critical components of the vehicles equipped with the system.
3. **Durability and Reliability:** The system has demonstrated consistent performance and reliability throughout the testing period, without any operational issues that could potentially harm the vehicles.

Saarthi Greentech's adoption of the GreenDrive Technology reflects our commitment to advancing sustainable and eco-friendly automotive technologies. Our rigorous testing procedures and transparent reporting ensure that our evaluations are both reliable and comprehensive.

Should you require any additional information or clarification regarding our experience with the GreenDrive Technology, please feel free to contact us at your convenience.

Sincerely,

Alok Kumar
